

GesTEX^{pro}

This system allows the inventory management for O.R. linen packs and surgical instrument trays.

MODULES

- Inventory management
 - Review and follow-up from the detailed history of receipts, carts, packs, trays, etc.;
 - Receipt of packs and trays by cart;
 - Stocktaking with terminal;
 - Distribution of packs and trays to different departments (clients);
 - Automated data transfer;
 - Report printing;
 - Security management.

BENEFITS

- Automated order thanks to the data transfer through internet between the client and its supplier;
- Prevention of back order and stock surplus.
